BOOT DRYER

Efficient boot dryer system developed for small- and medium-sized enterprises. **Plug & Play – unpack, plug in and start drying.** The entirely pre-assembled boot dryer can easily be activated.

- Energy saving, economical 50 Watt ventilation dryer
- Low odour and material saving drying process by using room temperature
- Fan and heating separately adjustable via timer
- Low noise generation – exceptionally quiet operation
- Heating of inner boot up to +15°C in comparison to ambient temperature

	Capacity	Width	Fan	Heating
H05	5	30 cm	1 x 50 Watt	1 kW
H010	10	60 cm	1 x 50 Watt	1 kW
H015	15	90 cm	2 x 50 Watt	2 kW
H020	20	120 cm	2 x 50 Watt	2 kW

Depth 48 cm / dryer height 190 cm (ceiling height at least min. 210 cm) / capacity information in pairs of ski boots

SMART BOOT DRYING SYSTEM

Simply set the starting time of the drying or heating process via timer. A warm ski boot in the morning – your guest will truly be pleased.

In accordance with the respective floor or room conditions, the dryer can either be wall-mounted or installed free standing on a base.
